

blackcat/allocators
/polymorphic_allocator.h

```
graph TD; A["blackcat/allocators<br/>/polymorphic_allocator.h"] --> B[memory]; A --> C[typeinfo];
```

The diagram illustrates the inclusion relationships of the `polymorphic_allocator.h` header file. A central box at the top represents the header file, with two arrows pointing downwards to two separate boxes below it, indicating that the header includes both `memory` and `typeinfo`.
